CONTENTS.

ANTS, White (Termites,) . 77, 113
Apple, ... 247
Arsenic, ... 351
Beaver, ... 105
Bee, Hive, ... 13, 43, 137
——, Humble, ... 176
Botany, ... 65
Cereus, Great Flowering, . . . 216
Climate, Influence of on Vegetation, 375
Coffee, ... 367
Copper, ... 254
Cotton, ... 336
Cranberry, ... 312
Dog, ... 232
Eagle, Bald, ... 359
Forest Trees, ... 349
Gold, ... 62
Horse, ... 260, 295
Hydrophobia, ... 240
Indian Rubber, (Syphonia,) . . 214
Iron, ... 221
Lead, ... 286
Lilac, ... 149
Man, 1, 41, 74, 101, 129, 161, 193, 225, 257, 289, 331, 353
Maple, Sugar, ... 156
Mercury. 159
Mineralogy, ... 97
Mulberry, ... 85, 315
Night Hawk, ... 301, 334
Orang Outang, ... 168
Passion Flower, ... 218
Peach, ... 273
Pear, ... 252
Platina, ... 32
Quicksilver, ... 159
Quince, ... 309
Rose, ... 181
Silk Worms, ... 51, 313
————, Management of, . . 90
Silver, ... 125
Strawberry, ... 205
Tin, ... 316
Vine, ... 22, 117, 276
——, Remarks on Culture, . . 120
Whip-poor-will, ... 305, 334
Wine, ... 278
Zinc, ... 319
Zoology, ... 33

List of Works which have been consulted:

THE names of authors are given in many instances in this work, but in general the quotations are so much altered, or taken from so many different sources, that it could not be done with convenience. The works consulted, or from which extracts have been made are as follows:—Am. Journal of Geology—Am. Journal of Education—Am. Farmer—Audubon's Ornithology—Buffon's Natural History—Brewster's Encyclopædia—Bigelow's Technology—Bevan's Treatise on Bees—Boston Scientific Journal—The Botanist—British Flora—Barton's Flora—Cuvier's Works—Cobb's Treatise on Silk—Cleaveland's Mineralogy—Cabinet of Natural History—Constable's Miscellany—D'Homergue on Silk—Encyclopædia Americana—Encyclopædia Britannica—Eaton's Zoology—Eaton's Botany—Eaton's Chemical Instructor—Family Library—Flora Pomona—Goldsmith's Animated Nature—Good's Works—Hortus Britannicus—Hortus Kewensis—Hill on Plants—Huber on Ants—Huber on Bees—Kirby and Spence's Entomology—Library of Useful Knowledge—Library of Entertaining Knowledge—Literary and Scientific Class Book—Lawrence's Lectures—Lawrence on the Horse—Lempreire's Lectures—Linnæus's Natural History—Lincoln's Botany—Martin's Dictionary of Plants—Magazine of Natural History—Natural History of Insects—N. E. Farmer—N. Y. Farmer—Nuttall's Botany—Prince on the Vine—Pomarium Britannicum—Rees' Cyclopædia—Rowland on Hair—Smith on Bees—Smith on Silk—Smith's Botany—Sylva Florifera—Scientific Tracts—Thacher on Bees—Transactions of London Horticultural Society—Turner's Chemistry—Vernon on Silk—Winterbottom's America—Woodbridge's Geography.
